

Renukiran
WELFARE FOUNDATION

About the Organisation

Renukiran Welfare Foundation (RWF) is a Section 8 non-profit organization committed to driving sustainable social impact across India. Since its formal registration in 2018, RWF has been working at the grassroots level to empower underprivileged communities through focused interventions in education, skill development, women empowerment, health awareness, community welfare, and structured employee engagement programs.

With a strong implementation framework and community network, RWF designs and executes impact-driven initiatives that align with corporate CSR objectives and the United Nations Sustainable Development Goals (SDGs), ensuring measurable and transparent outcomes.

Our **Mission** and **Vision**

Mission

To empowering underserved communities through education, healthcare, women's empowerment, and sustainable, inclusive development rooted in grassroots action.

Vision

RWF envisions a just and compassionate world where every individual lives with dignity, self-reliance, and equal access to opportunities for a brighter, inclusive future.

Our Programs

1 Education

2 Women Empowerment

3 Health and Hygiene

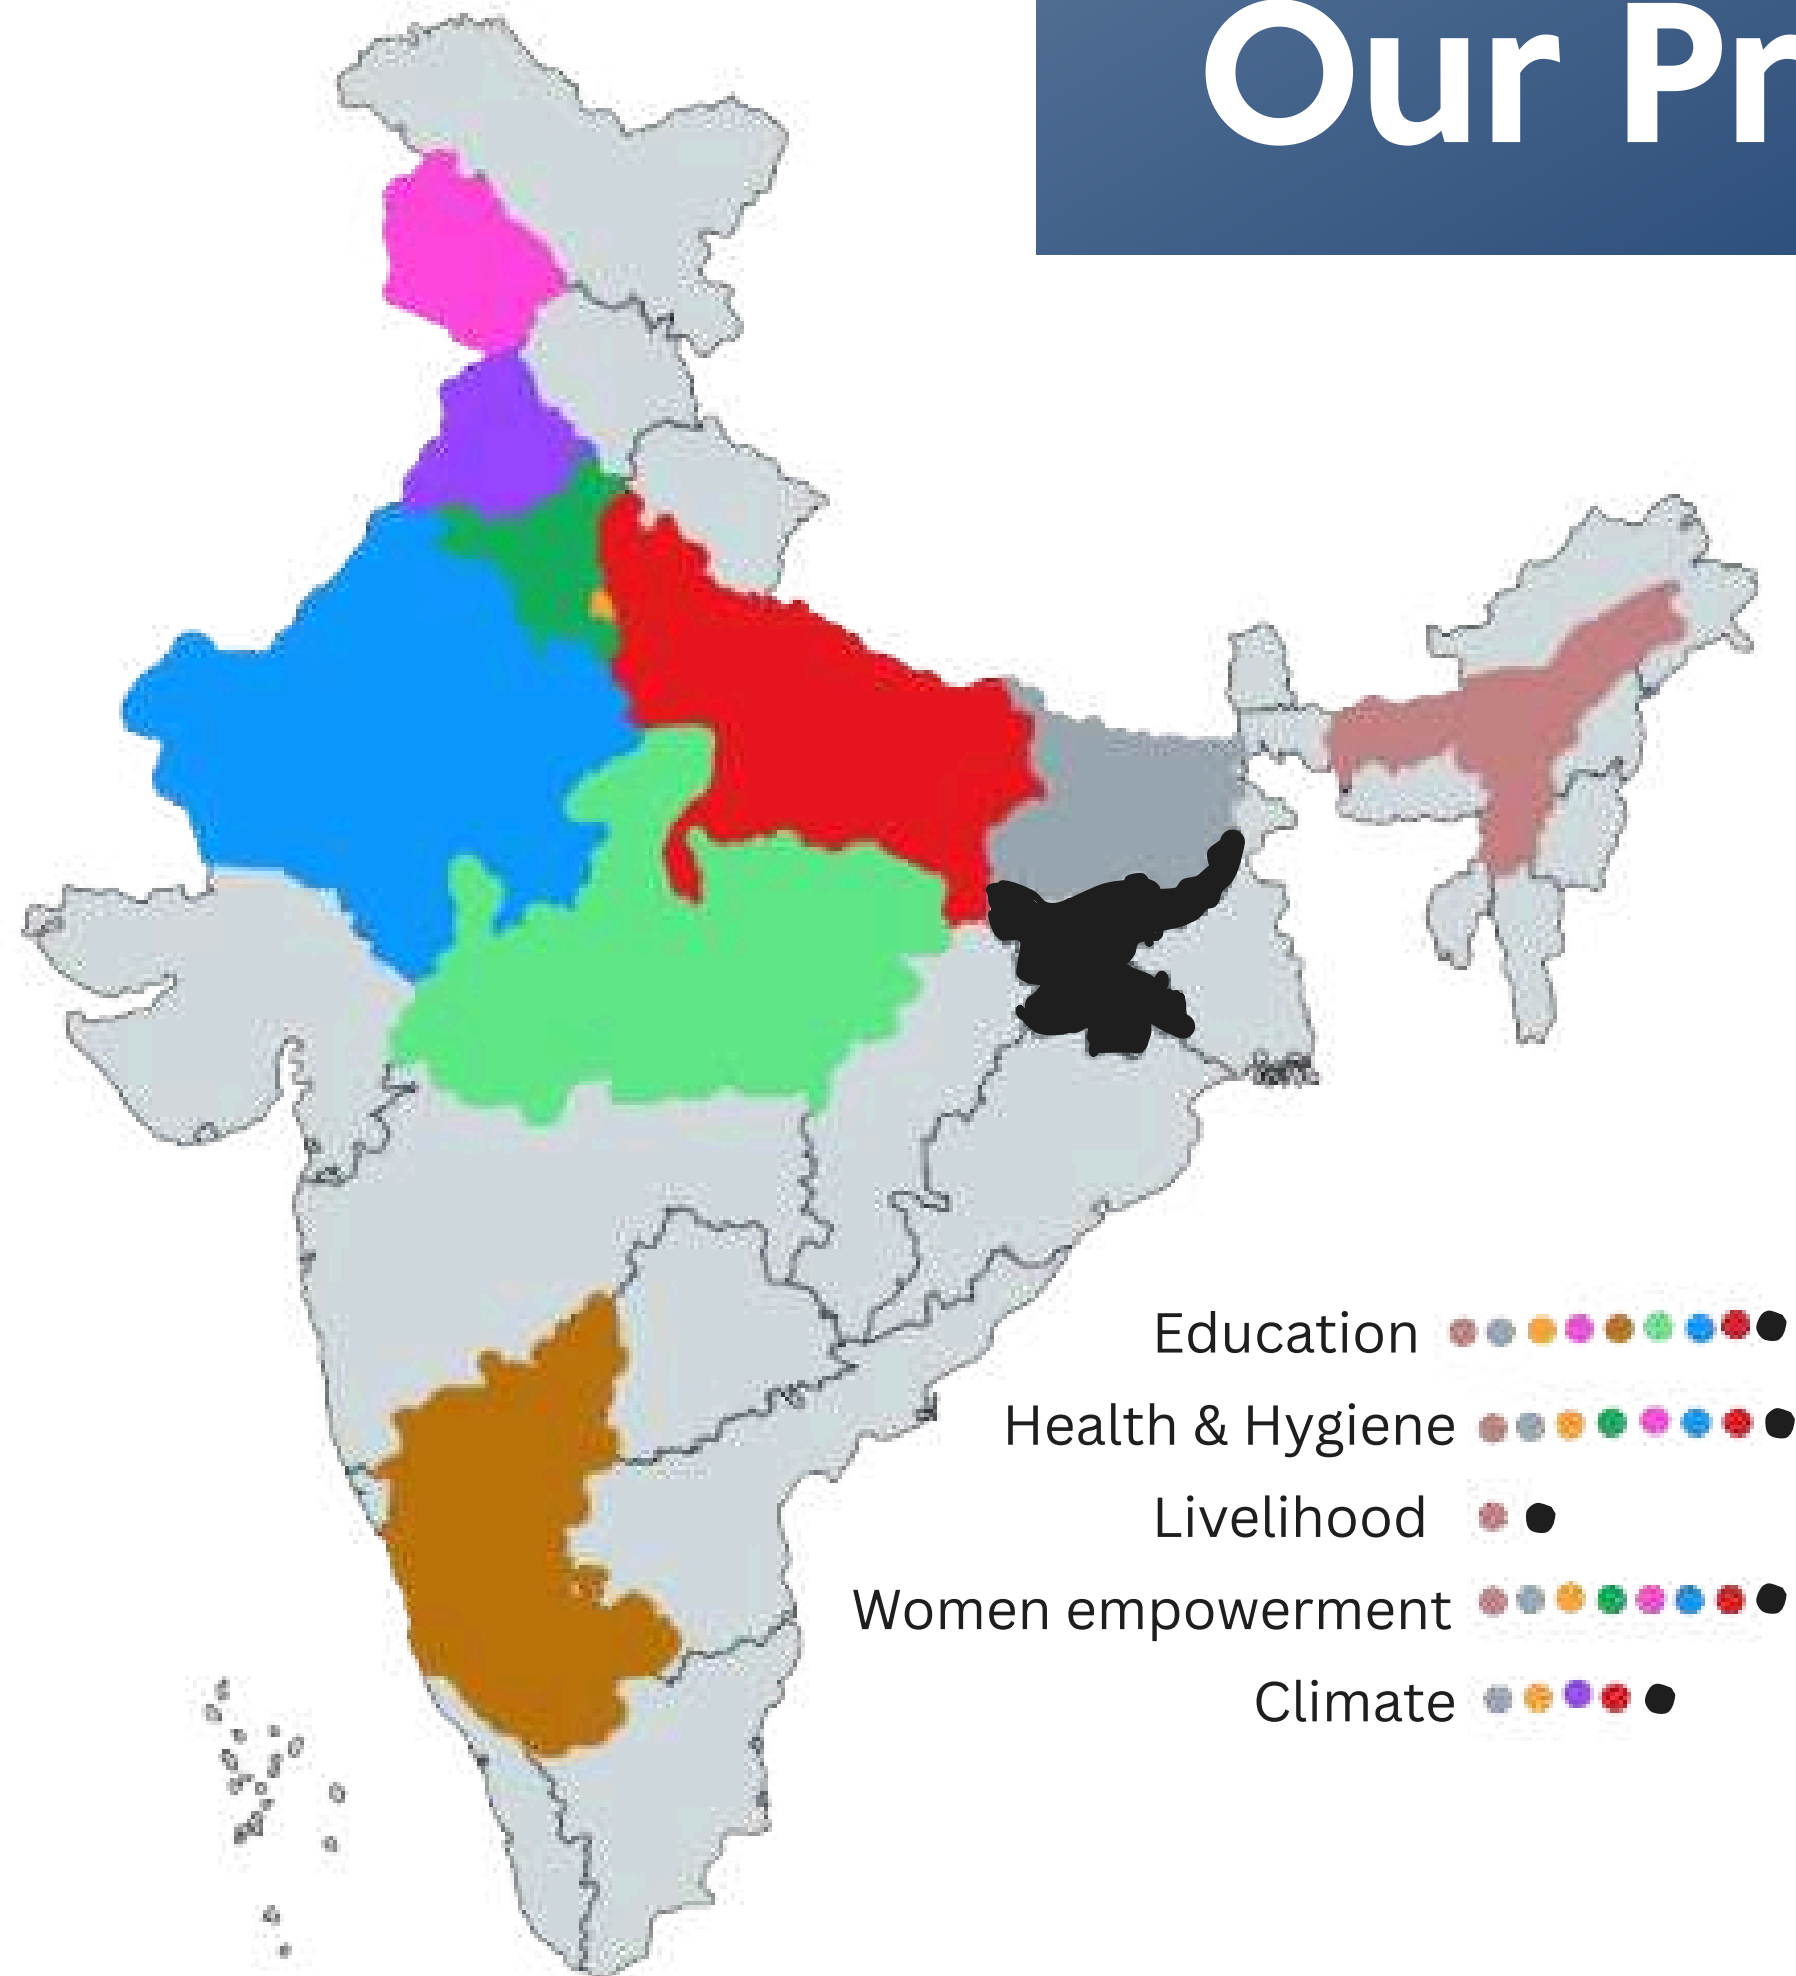

4 Livelihood

5 Climate Change

Our Presence

Delivering Impact Across India

From metropolitan hubs to underserved communities, RWF operates across multiple states with a focus on scalable and measurable social transformation.

SDG Goals

EDUCATION

Renukiran Welfare Foundation is dedicated to improving access to quality education for underprivileged children and youth. At our Palla, Faridabad centre, we provide structured computer education and foundational learning support to strengthen digital literacy and academic development.

In Jharkhand, Bokaro district, RWF supports students from Class 5th to 10th through structured academic assistance and learning support programs. Our focus is on bridging educational gaps, improving subject understanding, and building confidence among students to help them continue their education successfully.

HEALTH & HYGIENE

Renukiran Welfare Foundation actively promotes health awareness and hygiene practices within underserved communities. Our programs focus on educating beneficiaries about personal hygiene, sanitation, preventive healthcare, menstrual hygiene awareness, and overall well-being through community sessions and interactive workshops.

At our Palla, Faridabad centre, we also support nutritional well-being by providing free weekly meal (khichdi) to underprivileged beneficiaries. This initiative ensures that basic nutrition needs are met, helping improve health, concentration, and overall quality of life for the communities we serve.

Livelihood

Renukiran Welfare Foundation promotes sustainable livelihood opportunities through structured skill development programs across multiple locations. At our Palla, Faridabad centre, we provide vocational training in stitching, beauty & wellness, and basic computer skills, enabling women and youth to enhance employability and pursue income-generating opportunities.

In Garhi, Delhi, RWF conducts stitching and skill-based training programs aimed at empowering women with practical skills that support financial independence and self-reliance.

Additionally, in Indore, Madhya Pradesh, RWF facilitates specialized skill development initiatives, including ITI-aligned preparatory and technical training courses, designed to strengthen academic excellence and open pathways for higher education and competitive opportunities.

Through these initiatives, RWF focuses on building confidence, employability, and long-term economic resilience within communities.

Climate Change

Renukiran Welfare Foundation is committed to addressing climate change through structured, community-driven environmental initiatives. Our climate action programs focus on increasing green cover, restoring degraded spaces, and promoting sustainable environmental practices across urban and semi-urban regions.

We implement scientifically planned plantation models, including urban greening and community-based afforestation, ensuring high survival rates through structured monitoring and maintenance. Alongside on-ground interventions, RWF also conducts environmental awareness sessions to encourage responsible practices such as waste management, water conservation, and sustainable living.

Through measurable impact frameworks and transparent reporting, RWF aligns its climate initiatives with long-term ecological sustainability and global environmental goals.

Women Empowerment

Renukiran Welfare Foundation believes that empowering women at the grassroots level creates long-term social and economic change. Our women empowerment initiatives focus on practical skill development, confidence building, and income generation opportunities for women from underserved communities. Through stitching, beauty & wellness training, and basic digital literacy programs at our centres in Palla, Faridabad and Garhi, Delhi, we equip women with market-relevant skills that enable them to contribute to household income or start small home-based enterprises.

Beyond skill training, we conduct awareness sessions on financial literacy, health, hygiene, and self-development to strengthen decision-making capacity and self-confidence. Our approach is not just about training — it is about enabling women to become financially independent, socially confident, and active contributors within their families and communities.

Our Leadership

Avinash Kumar
Founder & Director

Bringing over 11 years of experience across Civil Society Organizations and multinational companies in India, he leads the strategic vision and overall operations of the Foundation. He oversees key functions including finance and volunteer management, ensuring structured and accountable implementation. Driven by compassion and innovation, he remains committed to creating sustainable impact for underprivileged communities.

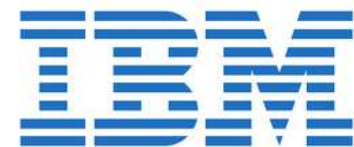

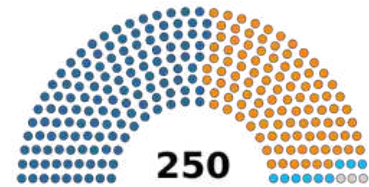

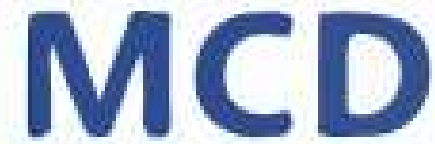

Pooja Gupta
Co-Founder & Director

With over 11 years of professional experience and currently serving as a Senior Analyst in a reputed MNC, she brings strong managerial expertise to the Foundation.

At Renukiran Welfare Foundation, she supports volunteer engagement, women empowerment initiatives, and key operational functions, contributing significantly to the organization's growth and impact.
